

Sleek compact design for portable exam environments

Tilt-and-swivel monitor for optimal viewing during procedures

Customizable control panel to personalize your user interface

Completely sealed control panel to simplify clean-up

A Clear Vision

Ultrasound reimaged for ease of use in point-of-care applications

Born of a vision to deliver meaningful design innovations that benefit the user, the Acclarix AX4 features a host of design breakthroughs that make day-to-day operation in point-of-care environments easy, fast and intuitive. The result is an elegant simplicity where form and function meet at the tips of your fingers.

- Best-in-class image quality with one-key optimization
- Application-specific exam and imaging presets
- Unique gesture-control user interface
- Tilt-and-swivel HD monitor
- Completely sealed control panel to simplify maintaining infection control
- Needle visualization technology improves needle identification

Transducers and Options

L12-5Q

5 - 12 MHz Linear Array

L17-7SQ

7 - 17 MHz High Frequency Compact Linear Array

C5-2Q

2 - 5 MHz Curved Linear Array

MC8-4Q

4 - 8 MHz Micro Convex Array

P7-3Q

3 - 7 MHz Phased Array

P5-1Q

1-5 MHz Phased Array

MT-809

Trolley System

Multi-transducer connector option

Sturdy, versatile travel case

Redefining Price Performance for Point-of-Care Ultrasound.

ENG-AX4 POC-V1.0-20200226

This fluid collection on the anterolateral aspect of the knee is clearly defined with the L12-5Q transducer.

The L12-5Q transducer provides excellent detail to easily identify the interscalene brachial plexus.

Highly sensitive color Doppler with the L17-7SQ allows for rapid and confident identification of the radial artery.

Superior detail and penetration is seen in this normal hip with the C5-2Q transducer.

Setting a New Standard for Point-of-Care Ultrasound

Redefining innovation through value and performance

Introducing a new price performance standard for point-of-care ultrasound. The remarkable Acclarix™ AX4 Compact Ultrasound System delivers a powerhouse combination of imaging performance and ease-of-use to meet the specific demands of point-of-care practitioners. The Acclarix AX4 has been designed from the ground up with a relentless focus on delivering unexpected levels of performance at a very attractive price point.

- Definitive Imaging
- Intelligent Workflow
- Distinctive Design
- Intrinsic Quality

Stunning Clarity

Definitive imaging

Sleek design and user-friendly features are just part of the story. The Acclarix AX4 is designed to deliver amazing clarity and stunning image quality quickly—eliminating the need to tweak imaging controls.

- High fidelity architecture results in superb resolution
- Tissue Adaptive Imaging (TAI) continuously and automatically optimizes imaging allowing more focus on the patient
 - In B-mode, TAI fine tunes multiple parameters to provide the best possible image quality
 - In Doppler, TAI automatically adjusts for flow state providing improved continuity, border detection and fill-in

The Virtue of Value

How can Edan deliver so much innovation AND so much value? By capitalizing on the experience and expertise of a truly global enterprise. Acclarix technology is the result of Silicon Valley innovation and engineering excellence combined with Chinese design and manufacturing proficiency. The Acclarix AX4 delivers unmatched value and performance across a broad range of applications.

- Musculoskeletal
- Anesthesia
- Physiatry
- Orthopedics
- Sports Medicine
- Vascular Access
- Rheumatology
- Pain Management
